These terms and conditions shall be governed by and construed in accordance with the laws of England and Wales. Any dispute arising under these terms and conditions shall be subject to the exclusive jurisdiction of the courts of England and Wales.

## NOTIFIABLE DISEASES

Diseases that are notifiable to the Local Authority Proper Officers under the Health Protection (Notification) Regulations 2010 are listed below.

Registered medical practitioners (RMPs) have a statutory duty to notify the 'proper officer' at their local Public Health England Team of suspected cases of certain infectious diseases.

Complete a [notification form](#) immediately on diagnosis of a suspected notifiable disease. Don't wait for laboratory confirmation of a suspected infection before notification.

[www.gov.uk/government/publications/notifiable-diseases-form-for-registered-medical-practitioners](http://www.gov.uk/government/publications/notifiable-diseases-form-for-registered-medical-practitioners)

Send the form to the proper officer within 3 days, or notify them verbally within 24 hours if the case is urgent. Contact your local Public Health England Team for further guidance.

### List of notifiable diseases
